

Fund Description

The Fund invests in a diversified group of specialist international equity managers. This asset sector can deliver high returns over long periods of time, but it can also show sharp and significant fluctuations in value, up and down, over short intervals. This Fund gives investors an opportunity to participate in the economic growth of major global economies through investment in international companies. This Fund has a currency overlay managed by a specialist currency manager to manage exposure to international currencies.

It is recommended that investment in this Fund be undertaken for at least five to seven years. International share investment can be volatile over the short-term.

Fund Classification Core/Diversified **Sector** Specialist/Satellite

Manager Commentary

Global equities rose higher in April as robust corporate earnings growth offset some concerns about rising US interest rates and some emerging potential signs of slowing global economic growth momentum. Global economic activities have remained fairly solid broadly despite signs of softness in some parts of the Euro zone. Commodities and oil prices were stronger during the month, which supported the resources sector.

The Fund under-performed the MSCI ex-Australia Index (in AUD terms) in April, rising 1.7% against a 2.8% rise by the index. The strongest contributor to performance in relative terms was the Fiducian India Fund, which rose 6.1% followed by the SSgA Global index Plus Fund which rose by 2.8%. Currency hedging detracted from fund performance in April, following a broad depreciation of the Australian Dollar against most major currencies. Over the rolling year, the Fund out-performed the index, rising by 14.0% against an index return of 12.4%. The Franklin Growth portfolio performed the best over the rolling year, with a gain of 21.6%, followed by the Vanguard Emerging Markets Fund (+20.5%).
