Fiducian launches Diversified Social Aspirations Fund for impact investors

Monday 2 November 2015 – Fiducian Group Ltd today launches the Diversified Social Aspirations Fund for impact investors. Each underlying fund within Fiducian's Manage the Manager system is either a member of, or certified by, the Responsible Investment Association Australasia (RIAA).

Share portfolios comprise investments in companies that aim to be positive for society and for the environment and aim to avoid investments in harmful activities, says Investment Manager Conrad Burge.

'Selected managers are expected to deliver a solid financial performance and therefore competitive returns from their portfolios,' he says. 'At the same time, their stock selection process must consider environmental, social, governance or ethical activities of the companies they choose for their portfolios.'

Investments can be made through the Fiducian Superannuation Service or the Fiducian Investment Service.
