

In-house IT team boosts Fiducian's growth in SMAs

SYDNEY – Fiducian Group Ltd continues to grow as one of Australia's very few successful end-to-end financial services businesses with its own IT systems.

For 2016-17, the IT team will target the self-managed accounts (SMA) market, says Alan Dunne, Chief Information Officer.

'We continually enhance our FASTrack administration platform and Fiducian Online and FORCe financial planning system,' says Dunne, 'and our focus now turns to ensuring capability to service the SMA market and facilitate faster turnaround of SMSF accounting engagements.

'There is a big market out there for SMAs being set up by IFAs, and the FASTrack system backed by Fiducian Online is tailor-made to serve this sector.

'It's now time to spread our wings into the IFA and SMA market because we're confident they will benefit from our systems.' Jai Singh, Head of Business Development & Distribution, says: 'We've already made contact with a number of recognised planning groups and the discussions so far have been very positive.'
